GOVERNOR DURBIN INSPECTS THE CATTLE, HOGS AND SHEEP.

Steer Sold for Fifty Cents a Pound-Intercollegiate Contest - Con-

vention Resolutions.

CHICAGO, Dec. 4.-The fifth day of the International Live Stock Exposition attracted the greatest crowd ever assembled at the Chicago Stockyards, the pavilions, pens and yards being crowded really beyond their capacity. High officials of several Western States and Canadian provinces were among the spectators, including Governor Durbin, of Indiana.

An interesting incident of the day was the selling at auction of the fat Hereford steer Wood's Principal, to which the championship of the show was awarded yesterday. A local packing firm started the bidding at 25 cents a pound. Penny by penny the price advanced, but 50 cents a pound was the limit, and A. G. Swenson, of New York, was the purchaser.

The annual intercollegiate stock-judging contest for the Spoor trophy was another feature of the day. There were fifty-seven contestants, representing eight colleges of agriculture from the following States: Illinois, Iowa, Wisconsin, Michigan, Indiana, Ohio, Ontario (Guelph) and North Dakota. Nineteen classes of live stock were judged. Each class was judged by a special judge after the students had judged them, and the students' judgment will be compared universities were present.

Stockmen Pay Tribute to the President-Other Resolutions.

CHICAGO, Dec. 4.-The national live stock convention, which is in session here, to-day adopted resolutions voicing their satisfaction in the fact that a man who understands the cattle interests sits in the President's chair at Washington. After lamenting the death of President Mc Kin-

"We recognize in our new chief executive one who is familiar with the industry we represent; who has wielded a lariat and brand-iron and knows personally of the joys, the hardships and the fatigues of life on the ranch and range. The cowboy on the range, and the stockman on the ranch, all feel that in President Roosevelt the Nation has a strong, honest and fearless ruler, and that the live stock industry has a friend at court in the person of one who knows the needs and necessity of that industry.'

Among other resolutions adopted were the following: That duties on hides be retained as long as the man who manufactures them into different articles is protected by tariff; that by treaty between this government and Germany that the latter government remove the ban on American meats, and that if the German government will appoint her own inspectors to send to this country the National Live Stock Association will see to the paying of their salaries, providing that meats bearing the stamps of the inspectors be received into Germany without protest; that an interstate law for the prosecution of horse thieves and cattle rustlers be enacted; that the President appoint a commission to visit England and work against the discrimination which Canadian cattlemen seek for themselves; that buzzards be exterminated; that the efforts of the Bureau of Animal Industry,

in seeking knowledge of bovine tuberculosis and to prevent the disease, are approved.

ILL FOR EUROPEANS.

VIENNA, Dec. 4.-Discussing President Roosevelt's message to Congress, the Austrian papers are unanimous in praising the reference to Anarchists, but on other points

they are not quite so laudatory. The Fremdenblatt comments on the peaceful tone of the message, remarking that President Roosevelt evidently will not al-

The Austrian Volks Zeitung believes that the strength of the message lies in the moderation of its tone, adding: "It speaks in the language of a strong man who knows he requires no sonorous words to be heard.' Neues Wiener Journal also dealing with the power of the message, recommends its closest study "so as to find

THE MONROE DOCTRINE. Further Comment of London Newspa-

pers on the Message. LONDON, Dec. 4.-President Roosevelt's message to Congress holds the first place in the afternon newspapers here to-day. The comment, however, differs little from that in the morning papers. Strong general approval of the announcement which, as the St. James Gazette says, "strikes notes of conscious strength and assured success,"

is the pervading tone of the editorials. "The spirited declaration for Monroeism will cause a flutter in Europe," says the Westminster Gazette, which continues: "If the Kaiser is really of the opinion, as alleged, that 'the American peril' is the duty at no distant date. Such a settlement, question of the future for Europe, he will find confirmation in the message. We do not doubt that it is the policy of this country, if called on to make a choice, to stand by the United States in defense of the doctrine. We are also an American power, and it was we who first

suggested the idea.' After noting that South America, the only outlet for the surplus of population of Europe, is largely in the possession of the corrupt Spanish, over whom the United States throws its aegis without guaranteeing good government, the Westminster Gazette concludes: "It is not easy to affirm this in the interests of mankind, and when the United States, after warning Europe not to enter America, proceeds itself step out from the American continent, ven a theoretical defense is difficult. Treatment of Anarchists.

NEW YORK, Dec. 4 .- No portion of the President's message is more cordially approved of in England than that referring to the question of treatment of Anarchists, says the London correspondent of the Tribnue. The National Bowling Congress is one of the principal sporting events in amateur circles in the country. It attracts bowling teams from all the large cities of the country and between 2,000 and 3,000 bowlers and strangers to the city where the tournament is held. There will be teams at Buffalo from all the large cities in the East and all the most important cities from the West, The tournament will last nearly a week and the city of Buffalo, it is said, will be greatly benefited by the gathering of

such a large number of bowlers.

The invitation to the National Bowling Congress to come to Indianapolis for its next tournament will be extended by Mayor Bookwalter, and he may go to Buffalo to urge its acceptance. The matter has not been taken up with him, but the bowlers who are interested in the matter will confer with him this week. The Commercial Club will also be interested in the matter and that organization will be asked to lend its influence in bringing the congress to this city. Last year the congress was held at Chicago and the 1902 tournament will be held in Buffalo. In 1903 it will be held in the West and Indianapolis bowlers believe that if efforts are made to secure it the tournament will be held in Indianapolis.
